Council Connection

Recent Council actions from June 16 meeting:

- **Turtle Lake Augmentation:** Council approved a motion directing staff to seek a Request for Proposal (RFP) for the necessary professional services to prepare a feasibility study for the potential augmentation of Turtle Lake and established a cost sharing ratio with the Turtle Lake Homeowners Association for the study. The City received a \$75,000 appropriation from the State Legislature that will help off-set the cost of this feasibility study.
- **Railroad Quiet Zones:** The City was recently awarded \$500,000 in funding through the State bonding bill to improve the railroad crossings at North Owasso Boulevard and Jerrold Avenue in order to establish a quiet zone on this north-south rail corridor. This grant is to be used to improve these crossings so they comply with the minimum standards needed to establish quiet zones. The Council approved an amendment to the agreement with SEH, Inc., an engineering consulting firm, to assist with the execution of the state grant and construction agreements with the Canadian Pacific Railroad. Shoreview is coordinating these efforts with the City of Little Canada since they also received state funding to establish quiet zones at five rail crossings in their city.
- **Sealcoat Bid:** Council approved the bid in the amount of \$295,173.20 submitted by Pearson Brothers Inc. for the sealcoating of local streets in southern Shoreview. Sealcoating is a process of coating streets with a chip aggregate. Sealcoating of streets is an important part of Shoreview's street maintenance efforts and extends the life of our residential streets. The City typically sealcoats streets on a 7 year cycle.
